

*Holy Spirit Thou art welcome in this place
Holy Spirit Thou art welcome in this place
Omnipotent Father of Mercy and Grace
Thou art welcome in this place*

I DON'T KNOW WHAT I WOULD DO

*I don't know what I would do,
I don't know what I would do,
I don't know
What I would do without the Lord,
When I look around and see
All that He has done for me
I don't know what I would do without the Lord*

*I don't know what I would do,
I don't know what I would do,
I don't know
What I would do without the Lord,
When I look around and see
All that He has done for me
I don't know what I would do without the Lord*

*Without Him, I can't do nothing
Without Him, I'd surely fail
Without Him, I would be drifting
Like a ship without a sail
So I'll ask Him to be my pilot
His Word my compass and guide
Until I'm anchored safely in glory
For without Him I'd drift with the tide.*

THIS WORLD IS NOT MY HOME

*This world is not my home I'm just passing through
My treasures are laid up somewhere beyond the blue*

*The angels beckon me from Heaven's open door
And I can't feel at home in this world anymore*

*O Lord you know I have no friend like you
If Heaven's not my home then Lord what will I do?
The angels beckon me from Heaven's open door
And I can't feel at home in this world anymore*

*They're all expecting me and that's one thing I know
My savior pardoned me and now I onward go
I know He'll see me through though I am weak and poor
And I can't feel at home in this world anymore*

*Just up in Glory Land we'll live eternally
The Saints on every hand are shouting victory
Their song of sweetest praise drifts back from Heaven's shore
And I can't feel at home in this world anymore*

*O Lord you know I have no friend like you
If Heaven's not my home then Lord what will I do?
The angels beckon me from Heaven's open door
And I can't feel at home in this world anymore*

PLEASE LET ME WALK WITH YOU JESUS

*I've been up in Mountain with Jesus
I've been down in the valley so low
And If ever a time He deserts me
Where with my troubles I'd go.*

*So please let me walk with you Jesus
Don't ever leave me alone.
For without you Lord I could never
No never make Heaven my home.*

*You found me when no one could help me
You found me when I was so low*

*You found me when no one could save me
and I did not know what to do*

*If I had all the wealth of this old war
If I had all that money could buy
If I had not the love of my saviour
I would rather be dead than alive.*

CONSIDER THE LILIES

*Consider the lilies
They don't toil or spin
And there's not a king
With more splendor than them
Consider the sparrow
They don't plant or sow
But they're fed by the master
Who watches them grow*

*We have a heavenly father above
With eyes full of mercy
And a heart full of love
He really cares when
Your head is bowed low
Consider the lilies
And then you will know*

*May I introduce you
To this friend of mine
Who hangs out the stars
And tells the sun when to shine
He kisses the flowers
Each morning with dew
But He's not too busy
To love me and you*

HE'S IN THE MIDST OF OUR STORM

*As you travel down life road
He is with you everyday
With every step that you take
He's walked ahead of you
and every night as you lay down
Angels are camping all around
You'll never be alone
For He is in the midst*

*He's in the midst of our storm
He's in the valley we walk through
Where two or three are gathered in His name
He'll be there too
When you feel so all alone
He'll be standing next to you
He's with us now
Our Lord is in the Midst.*

*Into a prison they were thrown
Paul and Silas weren't alone
They knew their God was there
And He would see them through
As the walls began to shake
And their chains just fell away
They cried behold our God
For He is in the midst*

MASTER OF THE WIND

*My boat of life sails on a troubled sea
Whenever there's a wind in my sail.
But I have a friend who watches over me
When the breeze turns into a gale.*

*I know the Master of the wind.
I know the Maker of the rain.
He can calm a storm, make the sun shine again.
I know the Master of the wind.*

*Sometimes I soar like an eagle through the sky
Above the peaks my soul can be found.
An unexpected storm may drive me from the heights
Brings me low, but never brings me down.*

STANDING SOMEWHERE

*Standing somewhere
In the shadow you'll find Jesus
He's the one
That always cares and understands
Standing somewhere
In the shadows you will find Him
And you'll know Him
By the nail prints in His hand*

*I shall know Him, I shall know him
As redeemed by His side I shall stand
I shall know Him, I shall know Him
By the prints of the nails in His hand*

THE DAY OF REDEMPTIONS IS NEAR

*Nations are breaking, Israel's awaking,
The signs that the prophets foretold;
The Gentile days numbered, with horrors encumbered;
Eternity soon will unfold.*

Chorus

*The day of redemption is near,
Men's hearts are failing for fear;
Be filled with the Spirit, your*

*lamps trimmed and clear,
Look up! Your redemption is near.*

*The fig tree is growing;
Jerusalem's restoring
Her national life, long dethroned;
Today she is calling, her latter rain's falling.
"Return, O dispersed, to your own."*

*Heaven's powers are shaking,
and many are mistaking
God's meaning to be of the sky;
God's Church is the power that's shaking this hour;
The day of redemption is nigh.*

*False prophets are lying.
God's Truth they're denying,
That Jesus the Christ is our God;
Though this generation spurns God's revelation,
We'll walk where the apostles have trod.*

I want to read from *Jeremiah 8*:

20. The harvest is past, the summer is ended, and we are not saved.

21. For the hurt of the daughter of my people am I hurt; I am black; astonishment hath taken hold on me.

22. Is there no balm in Gilead; is there no physician there? why then is not the health of the daughter of my people recovered?

In German it says,

20 "Die Ernte ist vergangen, der Sommer ist dahin, und uns ist keine Hilfe gekommen."

21 Mich jammert herzlich, daß mein Volk so verderbt ist; ich gräme mich und gehabe mich übel.

22 Ist denn keine Salbe in Gilead, oder ist kein Arzt da?
Warum ist denn die Tochter meines Volks nicht geheilt?

Heavenly Father we just read your word and I just pray that you will help me say the things that you put on my heart to say all week. Help me to say them in such a way where there will be a crystal clear picture for people to see what you are trying to say in this hour, and most of all we pray that you give that increase, in Jesus Christ name we pray. Amen.

What I have in mind here is taking that scripture in concern of our lifespan. If you read that scripture and apply it to a year to year basis in terms of your lifespan - the harvest is past, the summer is ended, and we are not saved. Like my life has passed and has ended and we have not been saved. For a person's life span, what I am trying to say here across the street there are these senior citizen homes, and then there are the care homes where they need care. They need nursing and such. I just pray that I can say what I see. Like back in the day there never used to be these senior care homes. Parents would have their children and when they got old and feeble the children would take care of them. That is how it used to be, but now the whole society is upside down, even with these hospitals and the clinics. What I am trying to say is we only have one life to live and we need to live it for the Lord.

I want to go read in *Ecclesiastes 12*:

1. Remember now thy Creator in the days of thy youth, while the evil days come not, nor the years draw nigh, when thou shalt say, I have no pleasure in them.

2. While the sun, or the light, or the moon, or the stars, be not darkened, nor the clouds return after the rain:

3. In the day when the keepers of the house shall tremble, and the strong men shall bow themselves, and the

grinders cease because they are few, and those that look out of the windows be darkened,

4. And the doors shall be shut in the streets, when the sound of the grinding is low, and he shall rise up at the voice of the bird, and all the daughters of musick shall be brought low;

5. Also when they shall be afraid of that which is high, and fears shall be in the way, and the almond tree shall flourish, and the grasshopper shall be a burden, and desire shall fail: because man goeth to his long home, and the mourners go about the streets:

6. Or ever the silver cord be loosed, or the golden bowl be broken, or the pitcher be broken at the fountain, or the wheel broken at the cistern.

7. Then shall the dust return to the earth as it was: and the spirit shall return unto God who gave it.

What I want to portray is when you get born in this world, and you come to the age of accountability you need to put in every effort that you can to find that place of your eternal destiny. You should do whatever it takes to find peace with God. That is what I did when I reached the age of accountability, and if I could do that then everybody else can. Everyone has the freedom to do that. Like when you reach the age of 21-23, when the Lord began to deal with me and then He saved me when I was 24, and then I did everything that I possibly could to prepare myself for eternity. I probably could have done a lot more but the thing about it is it was always on my radar. I got to do something about my eternal destiny. I have to prepare for that day when I am going to be faced with what I did with my life. Like it says: *Remember now thy Creator in the days of thy youth, while the evil days*

come not, nor the years draw nigh when thou shalt say, I have no pleasure in them.

When you are young and in your prime that is the time to seek your Creator so that when you are old and feeble you have something laid up in your storehouse. When you are old and feeble it is harder to do that. There is a season of time in each one of our lives where we need to do that, there comes a time in everyone's life where they seek their Creator and the best time to do that is when you are young.

Lorraine speaks: There is a children song: O Kinder sucht schon früh den Herren, jetzt ist er nach und hilft euch gern die froh in suchen finden ihn. Und mit den ewigen gewinn.

Sam speaks: I pray that I can get this thought out, that everyone has access to Heavenly things just like you and me. There is no excuse for nobody. There is no excuse for anyone not doing what they can for their eternal destiny; to that Heavenly home. Just as you were reading the other day about the doctor and the clinic and all that stuff in the book of Sirah 38:

Concerning Physicians and Health

1. Honour physicians for their services, for the Lord created them;

2. for their gift of healing comes from the Most High, and they are rewarded by the king.

3. The skill of physicians makes them distinguished, and in the presence of the great they are admired.

4. The Lord created medicines out of the earth, and the sensible will not despise them.

5. Was not water made sweet with a tree in order that its power might be known?

6. And he gave skill to human beings that he might be glorified in his marvellous works.

7. By them the physician heals and takes away pain;

8. The pharmacist makes a mixture from them.

God's works will never be finished; and from him health spreads over all the earth.

9. My child, when you are ill, do not delay, but pray to the Lord, and he will heal you.

10. Give up your faults and direct your hands rightly, and cleanse your heart from all sin.

11. Offer a sweet-smelling sacrifice, and a memorial portion of choice flour, and pour oil on your offering, as much as you can afford.

12. Then give the physician his place, for the Lord created him; do not let him leave you, for you need him.

13. There may come a time when recovery lies in the hands of physicians,

14. For they too pray to the Lord that he will grant them success in diagnosis and in healing, for the sake of preserving life.

15. He who sins against his Maker will be defiant towards the physician.

What he is saying here is that a doctor is the last resort, but you should live a life that it does not come to that, that is why we are doing whatever we can to present our bodies a living sacrifice and if we can do it then anyone can do it. There is no need to go to a doctor when you put in every effort that you can to do whatever it takes to look for your Creator in the days of your youth. When you put in every effort to do that, then you won't have to see the doctor because Jesus is now your eternal father, in the song - *Uns ist, Uns ist ein Kind geboren - Ein Ewig-Vater heißt dies Kind.*

If you make Him the Lord of your life, and you do whatever it takes to build up a comradery with Him He is going to see to it that when you are old and feeble that He will take care of your health issues just like He did with me. I feel like I am 37 years old or even younger because everything is functioning properly simply because I have done what I could to seek my Creator. Even at that, I could have done a lot more. I was concerned about my health. I know nobody is going to do it for me it is my responsibility. The Bible lets us know that. Just because we live in a world where there is food galore does not mean that we should indulge, it only means we have to be all the more aware and sober. The Bible is our compass and guide, and we know that it says in the scripture that we should present our bodies a living scarifies, because it is the temple of the holy ghost, and you do whatever it takes to maintain that and be healthy.

What I'm saying about these senior homes and these clinics and these hospitals, this medicare, and these outlets is that people use it because it is the path of least resistance. They live the way they want and then they figure if I get sick the hospital is just down the road, and if I get old I'll check into the old folks home and I'll get care. Instead of taking responsibility for themselves as they walk throughout life. We have only one life. We do not want that scripture to apply to us - *The harvest is over, the summer is pased and we are not saved.*

Basically, it is saying our life has been a waste. It says in the Apocrypha that the day will come when the life that we have lived will be like a shadow, like a ship sailing through, or like a bird flying through the sky. Here in Wisdom, it tells us the outcome of the righteous and the unrighteous. People have been duped they have been programmed and what

happens that when someone does come along and tries to live an upright life they make fun of that person. We from far back have tried our best to live and walk by the spirit. Of course, we fail Him, but it is always on our radar it is always our ambition in life to walk right before the Lord and to do what is right and pleasing in His sight but people that have not done that they will at the end of their life say the harvest is passed the summer is over and we have not been saved. They will come to the realization that their life is over and they have not sought the things of the Lord, and not taken responsibility, and just kept kicking the can down the road - Oh, we will do it the next day; tomorrow is another day.

1. Then the righteous will stand with great confidence in the presence of those who have oppressed them and those who make light of their labors.

2. When the unrighteous[a] see them, they will be shaken with dreadful fear, and they will be amazed at the unexpected salvation of the righteous.

3. They will speak to one another in repentance, and in anguish of spirit they will groan, and say,

4 . “These are persons whom we once held in derision and made a byword of reproach—fools that we were! We thought that their lives were madness and that their end was without honor.

5. Why have they been numbered among the children of God? And why is their lot among the saints?

6. So it was we who strayed from the way of truth, and the light of righteousness did not shine on us, and the sun did not rise upon us.

7. We took our fill of the paths of lawlessness and destruction, and we journeyed through trackless deserts, but the way of the Lord we have not known.

8. *What has our arrogance profited us? And what good has our boasted wealth brought us?*

9. *“All those things have vanished like a shadow, and like a rumor that passes by;*

10. *like a ship that sails through the billowy water, and when it has passed no trace can be found, no track of its keel in the waves;*

11. *or as, when a bird flies through the air, no evidence of its passage is found; the light air, lashed by the beat of its pinions and pierced by the force of its rushing flight, is traversed by the movement of its wings, and afterward no sign of its coming is found there;*

12. *or as, when an arrow is shot at a target, the air, thus divided, comes together at once, so that no one knows its pathway.*

13. *So we also, as soon as we were born, ceased to be, and we had no sign of virtue to show, but were consumed in our wickedness.”*

14. *Because the hope of the ungodly is like thistledown carried by the wind, and like a light frost driven away by a storm; it is dispersed like smoke before the wind, and it passes like the remembrance of a guest who stays but a day.*

The Reward of the Righteous

15. *But the righteous live forever, and their reward is with the Lord; the Most High takes care of them.*

16. *Therefore they will receive a glorious crown and a beautiful diadem from the hand of the Lord, because with his right hand he will cover them, and with his arm he will shield them.*

17. *The Lord will take his zeal as his whole armor, and will arm all creation to repel his enemies;*

18. he will put on righteousness as a breastplate, and wear impartial justice as a helmet;

19. he will take holiness as an invincible shield,

20. and sharpen stern wrath for a sword, and creation will join with him to fight against his frenzied foes.

21. Shafts of lightning will fly with true aim, and will leap from the clouds to the target, as from a well-drawn bow,

22. and hailstones full of wrath will be hurled as from a catapult; the water of the sea will rage against them, and rivers will relentlessly overwhelm them;

23. a mighty wind will rise against them, and like a tempest it will winnow them away. Lawlessness will lay waste the whole earth, and evildoing will overturn the thrones of rulers.

They did that to Jeremiah the prophet. They said let's kill him with our tongue. The same with the rich man and Lazarus, that rich man he taught he is the blessed one, and Lazarus is the cursed one, but he was there for a test for the rich man to see if he will have compassion on him.

Like I was saying, society has this mindset, there never used to be these places, but society has made it a way of life and behind it all is the spirit of Satan wanting to destroy. It is not normal it is not meant to be that way because what is happening is behind is all is wanting to erase God from society. It is all about personal responsibility, I am responsible for my life, and my health. We will all have to give an account with what we did with our life like it says in *Romans 14:12 So then every one of us shall give account of himself to God.*

It is all by design it is all designed in such a way to completely wipe out God from the face of the earth, and bring in this free medicare, socialism, so people feel free to live a life where they are not accountable for their own action.

That is why God created us as it says in Ephesian that we should live holy and upright before Him in love. If people would do that, live before God knowing that there is a God, on a day to day basis, and having that desire to walk humbly before Him this world would be in a different state that it is. That is what we gauge ourselves with. We put in every effort that we can to stay above the curb, so to speak, and if everyone would do that there would be no need for hospitals. There would be no need for the police force, there would be no need for these places.

I saw all that during the week and what happens now with that major in New York, what he did he went and put all these seniors into this senior home when he knew very well that it is contaminated with that Covid-19 and there are a lot that died. You could get worked up over the guy but he is just showing what the results are from these homes so that now even their children can no longer go in there and visit. There you can see the fruit of it. Whereas if they would do it like it used to be that when the parents get older the children would be there for them to take them in and they take care of their aged parents if they cannot help themselves anymore.

Now I want to say this if you live for the Lord and you do your very best to live above reproach you are really not going to need anyone to take care of you. Like brother Jackson, he lived until he was about 80 years old, and he was on fire until the day he died. He didn't need anyone to take care of him, in fact, he took care of things and people, more than anyone took care of him. Now let's say that a person is feeble depending on genetics then you would have your family that is there for you to take care of you, that is how it is supposed to be, but these care homes that you see is people they kick the can down the road and they don't take responsibility for

their own life, and all that is attributed to the society that we are now living in. If a person wants to live above board one has to really put in the extra effort to do so. It is like it is all by design and at the end of the day it is that pale horse rider, and as it says in Revelation he takes all these people out to Hell and death.

That charismatic move makes it appear that everything is good right now, but they do not step back and realize where is this taking me. These seducing spirits are taking them out to Hell and death, and that is the same thing with that medicare, and that free health care system, society is being programmed not to be accountable and that results in these care homes because people just go along with the flow of things and think that that is the way to go - Oh if I get old I'll just go to the old folks home. Instead of taking responsibility for their health for their life, for their actions, instead of living before God, holy, and upright before Him in love.

I just hope and pray that I can bring this picture out, that when we come to the age of accountability we have to start taking responsibility for what we do with our lives and what we do with our health, what we do with the Word of God. It says in Psalm - *Thy Word is a lamp unto my feet and a light unto my pathway.* For myself I know I have indulged in food way too much, but I always had it on my radar. I told this one guy I feel guilty every time that I eat. See you always have to have a certain level of consciousness that you can't be eating like that and go around being overweight. It is going to catch up to you eventually.

Like I say I always had it on my radar, and I did not have the willpower to do it, and sometimes I would take 3 steps ahead and then 3 back, but I never let it off my sight. I knew I

have to do something and I tried to do something, and because I had it on my radar about my health and about losing weight and one day the Lord came by and opened up my understanding to that book — Eat Right for 4 your blood type. Then it was like a magic wand and I had absolutely no desire to go out and indulge in food that is not compatible with my blood type. Like beef and pork are not compatible with my blood type, it is not beneficial for me so why would I eat it if it is not beneficial for me. I took responsibility for my own actions, I had it on my radar all my life but I could not overcome this thing. The more I would try the more weight I would gain, I was up to 250, and I fasted but it was not until we came across that book - Eat right for your blood type, that I could walk away from pork and beef and other things that are not good for me. I can now walk away from beef and not even have a fight about it because it is not beneficial for me it says that my blood type should avoid it, now for me knowing that and then still eating beef on a regular basis would mean that I don't care what happens to me, and then eventually I would fall into the hands of a doctor. Had I not been conscious of it, had I not had it on my radar I would be heading down that doctor and that healthcare road. I am not giving me a pass, because I have failed Him so often sometimes I get faint in my heart.

One thing I can say though I always had it on my radar I have always tried. I always fought this thing and when I came across this book it became easy. What I am saying is all people need to do is live life and take responsibility for themselves and for their actions and for their health, and then God will have a better plan for their life a better quality of life and they would not have to go to these old folks homes. They wouldn't have to go to the doctors, they would not have

to go to these hospitals if they take that responsibility seriously because your health is in what you eat, 99% is in what people eat but some of it is genetic, then some of it is from the sins of the fathers, things get passed down from generation to generation, I am not giving anyone a pass. What I am trying to get across here these old folks homes, these clinics these hospitals, in a perfect environment if people would take responsibility for themselves there would be no need for them. Just like you and me we never go see a doctor, I have to go there once a year for my class one driver's license to do a check-up and that is the only time that I go see a doctor if I feel something coming up I enquire of the Lord, Could I have done a lot more in life, of course, I could have, but one thing I can truly say that I always had it on my radar, I was always conscious of it. First and foremost for my spiritual wellbeing, and then my physical wellbeing, and if people don't take responsibility for that then what can one expect.

Let's say on the Hutterite colony they figure when they get old the colony is going to take care of me, that is first-class socialism. They have the mindset my family they will be there to take care of me. That is the mind-set, but why first of all would you not take responsibility for your life so that the children will not have to have that big burden.

In my family line, there is lots of Alzheimer's, my dad, my uncle, most of my aunts, it runs in the family, and I believe that Alzheimer's comes from suppressing yourself when God wants you to stand up for something and you don't. It can be genetic but I'm convinced that it comes from being afraid to say what is on your heart, standing up for what is right, instead of going over what it is going to cost you first. I remember my aunt Lizzy she has Alzheimer's she is over in

an old folk home now, I know that she had something spiritual but she was afraid what people will say do or think. I could be in the same trap, but for me, it was so strong that I was going to say what I need to say, whether they terminated me or they don't terminate me, I am going to speak up I am going to say what is on my heart, or what they Lord puts on my heart to say. That is how you get away from getting Alzheimer's. It is constantly suppressing and then people go into depression and your whole body starts to act up. That is where a good percentage of it comes from, I am not going to say all of it but a majority of it.

Here is another thing when you live right before the Lord, people they make fun of you, they think that you are crazy that is all that I have ever wanted to do. To live right before the Lord and I have been ostracized and terminated. I went through a lot of ridicule - This guy is crazy this guy is out to lunch, but there is something inside of me driving me on, why can't everyone do that, why can't everyone live in a way that the Lord is pleased with. That is all I ever wanted to do, to live a life that the Lord is pleased with. Walking in the spirit just like the Bible says, walk in the spirit and you will not fulfill the lust of the flesh. Everyone can do what we are doing everyone can have the benefits of the Lord, and everyone can have it as good as you, and I have it. All our needs are met simply because we have decided one day to walk in the spirit we decided to follow the Lord. Please, let me walk with you Jesus, and it is there for everybody. I look around and see how society has more than brainwashed people, and what really bugged me all week is what that Major of New York did to these older people to these care homes how he put these older people into these homes when he knew very well that there was this virus there. I got worked up over it

and then I saw what was going on across the street here and I see these old people but they can walk to the restaurant across the street for a coffee or something and most of them are overweigh and you can tell that most of them have not taken responsibility for their health, and for their life, and for there actions, and then they end up in these homes where they are practically locked in.

That is how that kicking the can down the road works, anything but giving the Lord a chance. We have done that, I am 73 years old and I don't have ailments especially since I am staying away from these foods that are harmful to me. My fungus is clearing up and whatever issues I had they are disappearing simply because I am staying away from foods that are not beneficial for me. A lot of it is in what you eat, yes, you also have to live a life above reproach.

It is how you live, how you eat, and how you conduct yourself and all these things. That is why we all have a responsibility in taking care of our health and it starts when we are young then there will be no need in putting that burden unto someone else. Especially in the colony's when they get up to a certain age you can't do much anymore because you have abused your body and you do not benefit anymore and they will have to take care of you. Then they figure my kids will take care of me, and I don't want to mention her name but she taught her daughter will be there to take care of her and then her daughter gets cancer and now she is stuck and that is simply because she has not taken responsibly for herself, not wanting to face the truth, pushing the responsibility down the road and unto someone else. Instead of going over how they can ease the burden for someone else, they let it fall on other people to take care of them.

Before we started trucking together they thought - oh he will get old and he will have to come back to the colony somebody will have to take care of him. When I picked you up all their hopes went up in smoke. I am not going back, but they figured I will have to go back. I was never afraid of getting old it was never on my radar. I thought if I live upright from day to day and right before the Lord He is going to take care of things. Why won't He, He is our Heavenly Father above, He will do more than we can ever do for ourselves because Jesus is now that eternal Father. I have learned over the years that Jesus is actually like it says in *Isaiah 9:6*

*For unto us a child is born, unto us a son is given:
and the government shall be upon his shoulder:
and his name shall be called Wonderful, Counsellor, The
mighty God, The everlasting Father, The Prince of Peace.*

There are a lot of people that do not know how this thing works, He is a high priest, and everything, because everything goes through Jesus because of what He did for us at Calvary. What I am trying to say is that if you and I can do it then so can everyone else. Instead of kicking the can down the road and putting the responsibility on somebody else, but like I said the environment that we are living in has programmed people into thinking that is normal. They want to erase God from society and for every program that they make they have to make another program to cover all the problems with that program, it is all an endless Merry-go-around. The Word of God is for us to learn how to walk through this life. Like it says, walk in the spirit and you will not fulfill the lust of the flesh. It is just that simple.

As I said what really got me going on this topic is when you step back and analyze things when you see these senior homes and it didn't use to be that way instead of children

taking them into their homes and taking care of them, they put them into these homes. Now this Major of cities like New York, Pennsylvania, New Jersey all liberal run states they would put these seniors into these care homes that were polluted with that virus and there are a lot of them that died, and the ones that did not die the children could not go and visit them. You see the payout of that structure. People don't step back and analyze things, they think that is just the new normal and go along with it, but it all is part of that grey horse rider in Revelation it takes people out to Hell and death. Right now people do not know that because they have been blinded they think that they have it made. This Charismatic move has them deceived and it is taking them out to Hell and death. The Bible says so, now if you look at a lot of things in society it is all programmed to deceive people.

There are some places where you can't even go and visit. Like I was going to go visit my aunt at Gladstone and you cannot visit them unless you make arrangements to visit outside of a window. In many cases you can see that people are bringing things upon themselves simply because of their lifestyle and society has it so programmed that you have this backup plan. I could mention names from my own family, where they were hoping that when they get old that they are going to have someone there to take care of them. My question to them is why not take responsibility for your own actions why don't you live a life that is pleasing to the Lord, why do you have to indulge in a lifestyle such as eating foods that you very well know is harmful to you. We all know that this bread is harmful to you so don't eat it, except for the sourdough bread that we make ourselves here. I know that everyone can do that if they could only get their priorities right. Live before God holy and upright and blameless so that

you won't have these issues. Then walk in the spirit and you will not fulfill the lust of the flesh.

People have fallen into this society thing this brainwashing thing where they can't even think for themselves anymore. You and I come along and we live a life that is above reproach and they think that we are the crazy ones, but it is the other way around, we are living in reality. We are living in such a way that God meant for people to live. Where we are accountable for our own health, accountable for our own actions, and remembering that every time we indulge in food and eat things that we should not eat and if you overdo it, it is going to affect your health. What really helped me is finding out which foods are not beneficial and what kills you, eating things that are not beneficial for you.

Lorraine speaks: People don't inquire of God anymore they just think that the doctor is there, it is a quick fix, they don't seek from God for an answer to know what they are doing wrong, and what can I do, what does God require of me. It is too much of an effort for people to do that. People don't like to hear the truth anymore, God has requirements and they are all for your benefit and for your good wellbeing. The rebellious Human Nature does not want those boundaries. When you look back in your life everything that God has done it is for our benefit and for our wellbeing.

When you continue reading in *Jeremiah 8*:

21. For the hurt of the daughter of my people am I hurt; I am black; astonishment hath taken hold on me.

22. Is there no balm in Gilead; is there no physician there? why then is not the health of the daughter of my people recovered?

So He is basically saying I am still here, help is still available why are people not inquiring of me, people are

either ignorant not knowing that they can inquire of God for their health and their wellbeing or they don't want to meet God's requirement or His conditions to be healed. Like when you look at the children of Israel when they were going astray and then God could not heal them because they were busy worshiping idols, other gods, and then God could not come through for them. It is the same here for people in this age they are so caught up with false doctrines, false teachings that they are not able to access that balm in Gilead, that healing that physician, that God has provided through Jesus at Calvary. It is available for each and everyone but most people do not want to put in the effort to meet the conditions where God can heal them and meet all their needs.

Sam speaks: That is why He gave the children of Israel the Ten Commandments for their benefit and told them to stay away from these heathens, from idolatry so God can bless them, but they rebelled. It is the same thing today the Word of God is for our benefit, God is not willing that any should perish and if people would only stop for a moment and just pray their way through. If you get sick there is a reason you get sick.

All week I saw the results of this medical environment, the prophet of the age said if America would have accepted the message God would have saw to it that there would not have been a need for hospitals, and now America is full of hospitals they can't build them fast enough, simply because they wanted their own religion, and God was left out in the cold, He is still standing there, His Word is still rejected today. When the message came to me I accepted it with a passion. Then once I did that my whole family turned against me. They think I'm crazy, but I found something that I was looking for and I knew that it was real and to this day I am still reaping in

the benefits of God's blessings they are unmatched with anything else. That is why we have it so good, with finances and everything else now we finally have our food program. It is going to get worse for those that rebel against God, it is going to come to a place like it says, they will go hungry and my servants will be fed. The gorge is getting bigger, it is going to be a miracle when you find someone that you are going to see eye to eye with. Even your own family members think that you are out to lunch.

That is what I have been seeing all week long how this has evolved into a nightmare for these older people simply because in many cases they did not take responsibility for themselves. There is a God in Heaven I wonder if they even believe in one. When you see them walking all feeble and old you can't help but wonder what have they done in life, have they done anything towards their eternal destiny. I am sure if you go and talk to them they won't know what you are talking about. It all goes back to - Remember you're Creator in the days of your youth; The harvest is past, the summer is gone and we are not saved. Then you take that harvest and that summer as your lifespan. When our life here is over we want to have something to show spiritually speaking. We don't want to show up empty-handed. "Must I go, and empty-handed?" "Must I meet my Savior so?"

It will be a sad day for many people simply because they just went about life doing what they wanted to do, instead of seeking out what the Lord has for each individual person to do. I have tried all my life to do what He wants me to do and even at that, I have failed Him so many times sometimes I get faint in my heart. How much more so a person who has never even tried where is he going to stand. It talks about that too, if a righteous man will barely make it how will that person

make it that has never put in an effort, and never sought anything righteous. How does the sinner want to make it when the righteous will barely make it. What kind of a chance does the one have that has never sought for anything. You can see them with these scooters and you would like to go and talk to them but in today's age, they will accuse you of a hate crime when you talk to someone about the Lord.

Lorraine speaks: It is all a mapped out plan of destruction. When you go to the store you see all these foods and people don't stop and think if it is beneficial for their health, and they buy it and eat it, and once you fall into that rut it is hard to get out of that rut, eating these cakes, pastries chips, and these unnecessary foods. Where you could be feeding your body with nutrition. Then the next step is illness sets in because of not feeding your body with proper nutrition. Then people start seeing a doctor and then they subscribe a bunch of pills, and the pharmaceutical care kicks in. So it is all a vicious circle and once you fall into that circle it is hard to get out of their grasp because it is all by design to destroy. Whereas people could stop and think and do their own research what is harmful for me and what should I stay away from. What lifestyle do I need to stay away from, whether it is drinking, eating, smoking, or whatever it may be, people just need to stop and think - Do I want to end up feeble and no one to take care of me or do I want God in my life to direct me which way I should go and live a full life with a purpose.

Sam speaks: He is willing and able, I was thinking when you go down to that Family Foods, and all these other grocery stores there is aisle upon aisle of junk food, and the average person doesn't even know that it is junk food. When you see all these cookies and candies and such, then you

see all these process foods, and all these bread and you look at the ingredients and you find all the preservative that is in there to give it a shelf life, and you don't know what you are consuming. When you make a sourdough bread it is just 3 simple ingredients: Water, flour, and salt with the natural sourdough starter. It is too bad we didn't learn that many years ago, but see we are walking by the spirit. We are conscious about our spiritual wellbeing and then the Lord comes on the scene and He let us know that we need to get our physical wellbeing in shape too. Stay away from these fancy foods. You can talk from experience you came face to face with Him.

Lorraine speaks: Yes, I did. I had this dream it was so real I was standing in the store and in my hands I had two packages of chocolates and I heard a voice speaking to me - Do you love me more than these, and I had to put them back. It takes a while to kick in what is going on then I realize that it was affecting my health.

Sam speaks: Everything that the Lord does for us is for our benefit. We always had it on our radar and we would sometimes take three steps ahead and two back, and you would hold off buying some for a couple of weeks and then you would break down and buy some more, then we would end up buying this and that, but now we have finally come to a place where if it is not beneficial for me then we don't buy it. Why not eat things that are beneficial, like the muffins you made yesterday. When you go to the store they have to put preservatives in there to give them a shelf life. Even the flour, and here we have our own grain and a little mill and organic grains. Everyone could be doing that, all people have to do is walk in the spirit and God would bring it to people's attention. As I was saying I always had this food thing on my radar and

it was always a fight, three steps ahead, and three back and that is the way it would go. I would fast for 40 days and before you know it you put that weight back on again, but now with this diet of eating according to your blood type, I realized how simple it is to stay away from foods that are not good for you as much as you possibly can. I will still eat beef from time to time. I know that after the flood God commissioned to eat meat so I believe in eating meat but have it on your reader what you can and cannot eat, If you go out and eat beef every day it would be like committing suicide. When God commissioned to eat meat He meant in moderation. All you need is something to feed your body instead of robbing it of proper nutrition. Even all these vitamins and herbs can be harmful and become toxic if you don't know what you are doing.

What I used to do is 80% meat and 20% the rest, that is what I was programmed into thinking. Then when I find out that it's not good to do that, now when you tell people they think you are being sacrilegious about it. I used to make fun of those vegetarians but now I can identify with them a little better, I'm not sold out to vegetarianism you have to have a sense of balance. Certain meats are beneficial for you, that your blood can tolerate and that will feed your body but then there are certain ones that do harm to your body and there is a chemical reaction and you try to stay away from these things as best as possible.

I had fungus on my toenails and I tried pills and this and that and the other and it did not do a thing until I stopped eating beef. It is not beneficial for me it says avoid and it works against your system and becomes toxic. That is why there is so much colon cancer. It is a simple program, the Lord has a way of bringing it to your attention if you are

serious. It was always on my radar I would never let my guard down knowing full well that I am not going to be able to pull it off anyway, but I always tried and you always have to try, and you always have to chip away at it, and eventually, you will get there, the Lord will come on the scene and help you over the hump. Like He did with me and now it is a piece of cake. I used to go out Sunday to eat, especially when I went down to Grace and Truth we would go over to the Lobster place, to the Chinamen, to the buffets, and now it is not even a question you try to work yourself away from these habits instead of going towards them and succumbing to the flesh.

That is what I was seeing people they need to take responsibility for their actions, it is going to catch up and we are living in a society where it is all programmed for that. It is like a trend and at the end of it is destruction. Then you have all these old people where they bring in a virus, and they do it purposely. In this day there are a lot of children they don't want to take care of their parents, they don't want to take time out to take care of them, because it is a pleasure ridden society that we are now living in. They are in the way. When living a life of pleasure is done what did you get out of it - nothing. It is not very rewarding no matter how good it looks, there is nothing in this world worth living for. This world is not my home when you think about it what would you want to do, the only thing is getting a touch from the Lord, and to see something in His Word that's what gives me joy. The pleasures of this world are nothing to us. Everyone could live like that. This pleasure life it is all a delusion. When it is all said and done, and if they would be honest with themselves when they are done they are more tired coming home then when they left. I can see it on people. When you ask people where they are going, they say out to the beach having fun.

That is not my kind of fun we can go anywhere we want to in this world but it has no benefit unless the Lord is in it. When the Lord sends you somewhere it has a benefit and a purpose. That is the only thing that I am excited about.

It was so vivid to me all week how this health care thing and these hospitals all they are is a bypass, a detour that people use because they don't want to be led by the spirit to be guided by His eyes. Then these calamities come and then at the end of the day - The harvest is done the summer is over and we are not saved. It will be like that bird that went through the air and the air parted but as soon as it is gone the air came back together and that has been people's lives that have not sought for God. You see that in a lot of people. People get old and they are still not concerned about their spiritual and natural health and wellbeing. So they continue day by day, kicking the can down the road and each generation goes further and further into darkness from the things of God.

That is what I am been seeing and everyone could do what we are doing. Seek the Lord while He can be found, call on Him while He is still near. Everyone can do that.

7. Wherefore (as the Holy Ghost saith, To day if ye will hear his voice,

8. Harden not your hearts, as in the provocation, in the day of temptation in the wilderness. Romans 3

Everyone can do that everyone hears His voice, we did and everyone can if you can only desire it, you can only yield and lean a little towards that, but what most people do is they shut it out, and of course, the devil is ever ready to help shut it out, people they don't want the persecution.

Persecution is a good thing, I think it is because if it wasn't for the persecution then everyone and his dog would jump on

board. In the charismatic world, you don't get persecution and you have everyone jumping on the camp wagon. People don't want this persecution but I like this persecution to me it is the power of God unto salvation. The beautiful thing about the Christian life is the persecution like Paul said in

Philippians 3:10

That I may know him, and the power of his resurrection, and the fellowship of his sufferings, being made conformable unto his death.

That is where it is at. You will be hated and you will be shunned but who wants that kind of a fellowship anyway with people who don't believe the same thing. There is a song that goes - I'm a stranger in my home, I am the one left in the cold.

Heavenly Father we just had a little conversation around your Word, I just pray take the things that have been said and use it for your honour and glory put it together so people will get the drift of what we are trying to say, that we have to take responsibility for our own actions and most of all I pray give that increase in Jesus Christ name we pray, amen.

Lorraine speaks: When I am not in God's perfect will, the only option that is available for you is the doctor, but if you make sure that you are under God's umbrella, between the cleft of the rock, at a place where God is happy with you then doctors and hospitals they don't even come into the picture. They are so far beyond your thinking when you walk in God's will but when you are out of His will the thought of doctors and hospitals they do come into your thoughts. It is all part of death. I know how it works because I have experienced it, I just don't know how to put it into words.

Sam speaks: That is why God has to come on the scene and give that increase. I see how serious it is. It's like this

king in the Bible he went to inquire from a doctor and he ended up dying. The prophet came and told him because he went to a doctor instead of inquiring from the Lord about his health he died in 2 Chronicles 16. The Lord wants us to go to Him. I don't know everything and I know that the Lord does not want us to get too sacrilegious, because there are people who don't have a sense of balance so they will go to the extreme end of the spectrum. Doctors have their place you can never rule them out. They are there as a secondary thing. There is a place in God where He is your physician and He is your doctor. He is that balm in Gilead if people want it He is available. If you are young or old and you have never set your eyes towards the Heavenly's there is still hope for people to start today even if you have never given God a chance, give Jesus a chance and today is a good day to start. The Bible says today if you hear His voice harden not your hearts. There is never a lack on the Lord's part He is there if a person seeks for Him, and He is true and faithful. Amen
